Academics and NGOs can work together in association but must do so earlier and with genuine knowledge exchange.

MIAAHL YRC Forum worked closely in association with "YOUTH FOR SEVA" an NGO based in Bengaluru.

With the launch of its CHIGURU Non-profit Program for government school children, YOUTH FOR SEVA has been organizing several workshops and events that are tailored to the needs of the government school to promote a discourse of "educational, transparent, efficient, evaluative and impact driven" for government school children.

The flagship event 'Chiguru', training government school children, has touched so many lives in different ways to make their life better. A massive 90 students trained the government school children periodically, to make a big success. On the big day of 'Chiguru' event, an average number of 2700 children from 86 schools took part and won several prizes in different categories. We are proud to say that our "YRC unit trained school children, who won several prizes. The list is as follows:

Others Details	<p>To inculcate ethical values in students, to make them understand the harsh realities of life, and human life cycle, NSS Unit of MLA AHL planned to do service at the old age home. The students actively participated in providing various services at old age home Shankari Sadan, located in Malleswaram. The volunteers on rotational basis cleaned the entire building of Seva Sadan and set the garden for them. The students had lively interaction with the elderly people at the home, asking them to show their old photographs and making them reminisce their memories, entertaining them with songs, social media etc. They spent valuable time talking to them, getting to know their history, and getting insight into how they lived, how life was in their times and learnt values which can be applicable in this generation also.</p>	

Further the students learnt, how the elderly people should be cared for and their day-to-day activities, help they needed, emotional and physical support they needed et. The elderly people were empowered and energized by our students.

Our students also had a takeaway of how to take good care of the elderly in their families or around them. They just didn't steal the hearts of the people at the old age home but were also blessed by them for their exceptional work and spending valuable time with them.

Finally, this activity made our students understand that as youngsters, it is right to take care of our elders, as they will also one day become old and wait for support.

NSS Report on Activities conducted in Adopted Village, Dodda Byalakere, Hessurghatta Main road, Yelahanka Taluk, Khasaghattapura Grama Panchayat

NSS Students normally must work in villages, slums and with any NGOs to complete 120 hours of regular activities during an academic year. The fundamental principal of NSS is the volunteers should constantly keep in touch with the community. In this regard M.L.A.A.H.L. NSS unit thought of adopting a village for 5 years and doing the possible service consistently over a period of 5 years to the people. Accordingly, we got Permission from Chairman of Khasaghattapura Grama Panchayat Chairman Mr. Karan for rendering NSS service in Byalakere village.

Date: 5th November 2022

Cleanliness Drive

The NSS Program officer Ms. Sowmya K took 16 volunteers for the first time on 5th November 2022. The volunteers gathered in a village around 9.30am and worked till 2.30 pm. The work was assigned by Gram Panchayat members to clean the temple premises. All the volunteers were excited as they wanted to experience working in our own adopted village. The students worked in such a way that they won the confidence of the villagers on the first day itself and their efforts in cleaning the streets and temple premises were highly appreciated.

The students happily cleaned the places assigned and also collected the waste plastic items and handed over to the Gram panchayat office to recycle it.

The chairman Mr. Karan spoke to students and said them to carry on the activities in a dignified manner and briefed them certain rules and regulations to be followed while working in their village. He also said them to conduct themselves in a good manner and increase the reputation of their village and college also.

Health Checkup camp in Association with Manipal Hospital

With the objective to create awareness and encourage early health seeking care M.L.A Academy of Higher Learning NSS unit had organised health check-up camp in our adopted village in association with Manipal hospitals. The services like checking weight, height, blood pressure, ECG, GRBS and physician consultation was provided. The health camp was successful to engage young people to drive health seeking behaviour, build community awareness and reduce stigma to enhance early diagnosis of any disease and ultimately help encourage people with the disease to seek the care and treatment they need. The villagers showed the interest and got their health check-up done. They felt very happy for taking such kind of initiative by the NSS unit. This check-up helped to galvanise NSS unit support for community health.

The event ended with the note that we have taken and continue to take proactive steps to support the Indian governments work to accelerate sustainable patient access.

Distribution of Stationary kits in Government School, Byalakere

To commemorate swami Vivekananda 160th Birth Anniversary, the NSS volunteers conceived an idea to collect the stationary from the AHE students and distribute it to the government school children in our adopted village. The NSS volunteers collected notebooks, pens, pencils, crayons, eraser, colour pens etc. from the whole college to distribute to the government school children in Byalakere.

We visited the school, distributed the stationary kits and conducted competitions, had discussion with the children to internalise sanitation and cleanliness as a way of life. Such kind of initiative will encourage learning and hard work among the poor students. Through this small act we created an awareness on education among the students and motivated them to achieve big in their life. All the children were very happy receiving the stationary kits from our students.

This activity brought our students closer to the society they understood that real change needs work, and alone a person can contribute a little, but collectively they can achieve anything.

The Pledge

1. I will **never over-speed**, drive dangerously or weave in and out of traffic and always slow down when approaching any junction.
 2. I will **respect traffic signals** – slow down on yellow, complete halt at red and never ever dash through a red-light.
 3. I will **never drive under the influence of alcohol**.
 4. I will **never let a mobile phone distract my driving** (by calling, texting, answering or even glancing at it while driving, for just 2 seconds of missed eye-contact is all it takes to kill someone). If urgent, I will pull over when safe after signalling.
 5. I will **never drive on the wrong side** of a road or take U-turns before a roundabout or drive on a pavement or take any shortcut that breaks traffic rules.
 6. I will **always use seat belts/helmets** while driving, and encourage all passengers to do so, understanding this can save lives during accidents.
 7. I will **strictly follow lane driving**, use indicators especially for careful lane-changing when required, overtake only from the right and not block faster traffic by driving slowly in the fast lane.
 8. I will **respect rights of pedestrians** and stop before a zebra crossing, never on it.
 9. I will **respect rights of other commuters** and give right of way: a) to traffic from right, b) to traffic exiting a roundabout, c) to traffic on the larger road, d) to traffic in oncoming free lane in case my lane is blocked and always yield to ambulances, fire or emergency vehicles.
 10. I will **respect rights of non-motorised transport**, be it pedestrians, cyclists, carts, etc. highly vulnerable to accidents, ensuring they are not at risk by my careless driving.
 11. I will **drive with special precaution near children, elders or differently-abled** and slow down to allow them safe passage.
 12. I will **never use high-beam within city limits**, realising it can blind other drivers.
 13. I will **not allow underage driving by anyone in my family**, understanding this may cause loss of life.
 14. I will **show patience avoiding needless honking** and wait when it is not my right of way; always park responsibly and display courtesy wherever possible, improving the mood on our roads.
 15. I will **influence my driver, the driver of any vehicle I am travelling in and all in my circle of family and friends to follow these safe driving habits**, and spread the fever of safety, discipline and courtesy on our roads.
- Thank you for becoming a crucial change agent on Indian roads, and for doing your bit to make a difference.

Detailed Report

On 20th of November-2022 students visited Ragikana - Ramakrishna Samagra Shishana Kendra - A Beautiful and peaceful forest area with school. Many environmentalists visited regularly and explained the people about environment They provide opportunities to Farmers to showcase their products (swadeshi products) and encourage them to sell and many Banglorians usually visit and purchase.

villages are the backbone of our economy as most of the food crops are grown in villages & they are the food giver to urban people, due to modernisation now all farmers are using fertilizers and pesticides for the crops to get an effective yield which decreases the fertility of soil and spoil the environment and the crops & The people who buy these vegetables grown in pesticides are badly effected and in order to give insightful knowledge to our students on this matter Eco-club is organised an knowledge -walk and lecture by Dr Manjunath the founder of Gandhi Sahaja Besaya Kendra. Sir gave a mesmerising lecture to our students on the importance of environment, mainly on organic farming & its benefits and Side effects of modern/scientific methods of agriculture. Dr. Manjunath showed the various Glimpses of how organic farming changed many farmers' lives in Karnataka. Later students are taken in side Ragikana (small forest area) where sir explained about each and every tree, their importance. All students are actively participated & interacted with resource persons and were delighted.
